Additional information for submission of work.

We request that work is not sent by post.

There are different hanging systems used in the Galleries so we ask that split rings, but no cord, are attached to mounted work. All other works should have no hooks or rings attached. Work should be suitably presented for the exhibition, no MDF, no metal or clip frames. All works framed or unframed should be strong enough to take screw-in hooks.

Sculptors must supply a plinth with their work. The use of plinths and the display and location of sculpture/3D work will be at the discretion of the hanging team. Plinths supplied by entrants will not be used with other work without the permission of the entrant.

If artists have downloaded labels and will be delivering by courier please put all completed labels and data protection forms in a SAE and attach securely to the back of work. Labels will be attached at submission point. **Please have your title, name and address on the back of your work regardless of which type of label you use.**

The decision of the selection panel is final and no correspondence will be entered into regarding the selection of work.
